Study in Aarhus – a truly international city

Living in Aarhus

Aarhus is a popular place to live because of its relaxing environment and its closeness to the beautiful forests and beaches. It is also a vibrant city with a mix of old and new. Aarhus has perfect conditions for biking and the city is full of cyclists. Like the rest of Denmark, Aarhus is a safe city to live in. You can walk home from a party in the middle of the night and still be safe. There is a very low crime rate and very little corruption. The Danes are known to be some of the happiest people in the world.

Truly international

Our 1,000 international students at Business Academy Aarhus come from over 80 countries. Almost one quarter of our students are therefore international which means that you will be part of a truly international environment. All potential international students are interviewed to safeguard the highest academic and professional level and we work with quotas to ensure cultural diversity in all classes.

We have:

4,500
full-time students

1,000
international students

400
full-time employees

About Aarhus

Aarhus is the second largest city in Denmark with a population of more than 320,000 people. It has the highest percentage of students in Denmark, as approximately 20% of the population are university students. Learn more about our city at visitaarhus.com
