Dear all,

We are happy to announce that we have entered into an agreement with Nicolai Jepsen as the new CEO of Dan-Slovakia Agrar – Nicolai is Danish, 44 years old, married and have 3 children.

Nicolai has a degree in Agriculture and was for 9 years working for Goodvalley Russia, to begin with as COO, and for the last 5 years as CEO until the company was sold in the spring of 2022 – the company operates 6.000 ha and has 5.200 sows in full line production and its own feed production.

Currently Nicolai is COO of Goodvalley Poland responsible for the total pig and arable production. We are sure Nicolai is the right choice to bring DSA to the next level as he has great international experience as top manager and in people management and has shown impressive results working in similar companies as DSA. Furthermore, he is used to work out of Denmark with different cultures and mentalities.

Nicolai will have his base in Denmark but spend most of his time in Slovakia and be there on a weekly basis – he will start in DSA September 1st as the latest.

Kind regards,

Mads, Christian, Niels and Erik

Dan-Slovakia Agrar, a.s.
